PROJECTS

Ongoing Project - Fashion Website

Major Project -

GetMeACHai

- Developed GetMeACHai, a Patreon-type website built with Next.js and the MERN stack, enabling content creators to monetize their work.

Business Location Recommendation System

- Built a Full-Stack Website to assist entrepreneurs in making informed business location decisions, using Python's scikit-learn for clustering and identifying high-potential areas.

Minor Project -

- Password Manager
- Spotify
- Twitter
- TodoList
- Exercise Reminder
